SUMMARY

User-Centric Product Manager with a Master’s in Customer Experience and a background in Microsoft’s product ecosystem. Combines rigorous execution standards from Apple-tier manufacturing projects with hands-on experience building AI-driven workflow automations. Passionate about leveraging Large Language Models (LLMs) to solve user friction points and optimize end-to-end customer journeys.

WORK EXPERIENCE

Product Builder & English Tutor Oct 2025 - Present

- Identified a critical workflow inefficiency in manual lesson tracking and engineered a custom AI agent in a 10-day sprint to automate session summaries and vocabulary extraction.
- Engineered a custom teacher’s assistant agent, using Python to automate post-lesson workflows, reducing administrative time by 80% per session.
- Delivering English language training to adult learners, utilizing the sessions as a live user-research lab to identify friction points in the learning journey and creating automated solutions to address them.

Apple Watch Technical Program Manager – Luxshare Precision Industry Jul 2025 - Sep 2025

- Managed high-stakes communication between Apple clients and internal engineering teams, translating complex technical bottlenecks into actionable decision matrices under strict NPI deadlines

Product Management Intern – Microsoft China (Hired through Wicresoft) Oct 2024 – Jun 2025

- Led competitive analysis of Chinese AI tools (Doubao, Quark); strategy brief adopted by U.S. Edge leadership, informing China go-to-market focus.
- Analyzed user-research data, identifying three growth opportunities and guiding design iterations that boosted first-run task-completion rates by 12%.
- Translated local user needs into clear user stories and acceptance criteria for a China-specific Edge AI feature, securing cross-regional stakeholder buy-in across Design, Engineering, and ML teams.
- Designed and facilitated a product storytelling workshop for 30+ stakeholders, enhancing cross-functional alignment on product narratives.

SELF-INITIATED PROJECTS

LessonLoop Agent | *Product Builder*

Engineered an automated AI workflow for AmazingTalker during a 10-day sprint, parsing raw, complex lesson data into structured student summaries to deliver immediate, high-quality post-session feedback.

UX Product Case Studies | *Product Design & Research*

Led end-to-end design for AliExpress Redesign (mitigating dark patterns via user testing) and ReBottle (defining engagement features for a gamified recycling app).

EDUCATION

Master in Customer Experience & Innovation - IE Business School Sep 2023 - Jul 2024

Bachelor of Business Administration - National Taipei University Sep 2017 - Jun 2021

LANGUAGES

English (Full Professional Fluency, TOEFL 107) | Mandarin (native)

SKILLS & CERTIFICATION

User Research | Prototyping | LLM Workflow Automation | Cross-Functional Collaboration
